GWC DATA.AI
SOLUTION MATTERS

CLIENT USE CASE
Consumer Credit Union

INTELLIGENT DOCUMENT PROCESSING · LOAN APPROVALS · DEMO IMPLEMENTATION

Faster Loan Decisions with AI Document Processing

Consumer Credit Union was losing up to 8% of loan requests because document processing took too long. In a demo implementation, GWC Data.AI built a utility inside Domo that uses Claude's image understanding to read loan documents, extract the key information and speed up approvals, with security and compliance built in from the start.

AT A GLANCE

Up to 8%
Loan requests lost to processing delays
The revenue leak this solution targets

Inside Domo
No new platform to adopt
Runs next to existing credit union data

Secure
Aligned to EU, national & company policies
Governed data handling

THE CHALLENGE

- Loan applications stalled while staff manually read, checked and keyed in supporting documents.
- Slow turnaround pushed applicants away, costing up to 8% of loan requests.
- Handling sensitive personal and financial documents demands strict security and regulatory compliance.

OUR SOLUTION

- A **document processing utility built inside Domo** for the loan approval workflow.
- **Claude's image processing** reads scanned and photographed documents and extracts the required fields.
- Designed to follow **EU, national and company compliance policies** for secure data handling.

HOW IT WORKS

01 **Document Intake**
Applicants' loan documents are securely uploaded into the Domo utility.

02 **AI Extraction**
Claude reads each document image and pulls out the key information.

03 **Validate & Check**
Extracted data is checked for completeness and against the application.

04 **Review & Decide**
Loan officers review structured results and move applications forward.

05 **Secure Record**
Outputs are stored within Domo under the defined compliance controls.

SOLUTION COMPONENTS

Secure Document Intake
Controlled upload and handling of sensitive applicant documents.

Claude Vision Extraction
Image-based extraction of fields from scans, photos and PDFs.

Validation Checks
Flags missing or inconsistent information before review.

Compliance Guardrails
Processing aligned to EU, national and company policies.

BUSINESS IMPACT

Recover Lost Loans
Faster processing targets the up-to-8% of requests lost to delays.

Faster Turnaround
Documents move straight to review instead of waiting in a manual queue.

Less Manual Keying
Staff review extracted data instead of re-typing it.

Secure by Design
Sensitive data is handled within governed, policy-aligned controls.
